

# The Only **Eye Care Patient Payments** Solutions You Will Ever Need

LQpay's patient-to-provider technology is automated, mobile & integrated for streamlined processing & posting.

## More Revenue, Shorter Payment Cycles

### The Ultimate Eye Care Payments Processing Solution

The new reality of bill-paying is contactless payments made simply, safely and securely through mobile devices. This includes pre-payments, so your eye care patients can get attention faster.

**Eye Care leaders can now upgrade to a patient payments system fit for in-office and remote Ophthalmic care.**

LQpay is a modern, end-to-end patient payments system that handles all types of patient care. It adds the speed and convenience of remote, mobile processing along with traditional office processing. In-office payments are just as easy using the latest, "smart" handheld devices.

### Learn How Our Platform Can Help

**Modern Payment Terminals for In-Person Payments**— Wi-Fi, wireless device options available.

**Increase Revenue**— Our system facilitates better collections of balances due.

**Improve Cash Flow & A/R Cycles**— Secure card-on-file and text-to-pay options speeds payments.

**Increase Revenue Reduce Cost & Improve Operational Efficiency**— Mobile-based platform leverages automation for collection & posting.

**Better Manage Recurring Billing Plans**— Robust functionality & flexibility.

**Result in More Satisfied Patients**— Quick & contactless payments; enables use of mobile/smart devices for added convenience.

#### Payment Alerts

The system notifies the patient of amount due.

#### Contactless Payments

Patient pays quickly & easily from their mobile device.

#### Streamlined & Efficient

Provider receives payment. Transactions posted instantly.

## How the RPA Process Works

- Establish connectivity/access to the underlying EMR / practice management system
- Transaction posting protocols are confirmed with the provider
- Automation process and tools are aligned with provider workflow
- Robotics are programmed to post payments in real time—  
or as a scheduled batch at an agreed upon time each day

## Mobile, Paperless, Non-Contract Payments for the Modern Eye Care Practice

- Fast, convenient payments via mobile
- Faster processing of hard to collect patient balances owed
- Eliminates paper statements
- Integration with any existing EMR/EHR or practice management system
- Safe and secure
- HIPAA and PCI-compliant

**"The new reality of contactless billing makes LQpay a great option for our practice. The software is easy-to-use and requires little or no training for our staff. Plus, our patients love the quick and easy payment method—right from their mobile device."**

### Automated Post-Insurance Collections

LQpay retrieves patient balance owed, then sends patient actionable mobile statement via SMS/email for mobile card entry. With Robotics Process Automation (RPA), the system facilitates the automatic posting of payments into patient's account.

### Mobile Patient Pays Smartly

Using a remote smartphone or in-office, wi-fi based, smart payment device, patient pays with electronic speed & convenience.

### Integrated Accurate Integration

RPA enables seamless & accurate integration of financial data to any EMR/EHR or Eye Care practice management system, thus streamlining operations & reducing costs.
