PayCompass

VEROSA
QUICKBOOKS ONLINE

An online solution that allows you to save money on credit card processing while using QuickBooks® Online.

Highlight Product Features:

Credit Card & ACH Processing
Process one client or multiple clients simultaneously.

Live Posting
Your successful transactions, created customers, invoices, sales receipts, refunds, and voids pass back to QuickBooks® online.

Automatic Recurring Billing
Complete recurring sets of transactions at set intervals allow automation of your business processes and save you time.

Email Invoicing
Empower your client to pay directly. Customize and edit your own templates.

Detailed Reporting
Provide Transaction History, Customer Data, Sync Status, and Processing Error screens to track company activity.

Works with All Main Browsers
Compatable on PC, laptop and mobile devices. Only requires an internet connection.

Minimal Training
Users have the same workflow to maintain current productivity.

Protect Your Business
Credit card processing, account info and sensitive data is through our secure, encrypted and fully protected Level 1 PCI Compliant vault and processing center.

Experienced Staff
Our staff have been involved in payment processing, marketing and accounting software for over 20 years.
